Dear Mr. Weymouth,

On behalf of the Town of Derry and the Derry Fire Department I want to thank you and the Red Knights for your generous donation, hard work and the recognition that your group has brought to our program.

The *Derry HeartSafe Community Program*, is an initiative encouraging the Town of Derry to strengthen what the American Heart Association calls the “chain of survival”, which has four critical steps: early access to emergency care-e911, early bystander CPR, early defibrillation-AED, and early advanced care-ALS. By promoting the chain of survival in our community, increasing the number of people trained in CPR, and increasing public access to defibrillation through strategic placement of automated external defibrillators, we can increase the survival rate for cardiac arrest victims

Your donation was a great way to show your commitment to the health and wellbeing to our community, your friends and neighbors. This is a tremendous program—a proven lifesaver and with your help we hope that we can save lives.

Sincerely,
